
increase in back link

Posted by rosy - 2009/05/11 07:21

Hello everyone,

I'm new here. I would like to know the basic knowledge about increasing back links.

Hello,

Backlinks are incoming links to a website or web page. In the search engine optimization (SEO) world, the number of backlinks is one indication of the popularity or importance of that website or page.

Focus on these things to increase Backlinks.

#Forum participation through your signatures.
#Articles & Directories Submissions
#Trade links with related sites.

and wait for next update by google.

Backlinks or "back links" are links from other web sites to your site. They're sometimes also known as Inbound Links.It helps us to improve our rankings and becoming popular to others to the websites. It is achieved using different kinds of methods, such as social bookmarking, social networking and many moreB)
